

A dark rectangular box with a white border containing the brand name and product description. The word "Signature" is written in a large, elegant white script font, with "STOVES" in a smaller, white, all-caps sans-serif font below it. A horizontal line with three dots in the center separates the brand name from the product description. The text "Efficient & reliable Ecodesign wood burning stoves" is centered below the line. There are decorative sunburst icons in the top-left and bottom-right corners of the box.

STOVES

Efficient & reliable Ecodesign  
wood burning stoves

# Designed in Britain

Designed in Britain, Signature is a range of highly efficient Ecodesign, Defra-approved stoves built by stove experts for stove experts.

Signature Stoves has a longstanding reputation for outstanding quality at affordable prices. Many years of tinkering and adjusting has led to a set of stoves that are not just reliable and stylish but also some of the cleanest. For example, the Signature 5 has some of the lowest combined particulate output of any stove sold in the UK.

Throughout the design process, we have adopted the old US Navy saying: Keep It Simple Stupid (KISS), because overly-complicated stoves are often hard to maintain and fail faster.

## A SIGNATURE STOVE MEANS

# Ecodesign

SIA Approved

Meets all current and future stove regulations

Wood burning only

All models over 80% efficient

Low particulate output

Hybrid construction

Low distances to combustibles

Advanced Secondary/Tertiary burn

Powerful glass cleaning technology

Twin layered construction
